Gentlemen:-

Please send me list of your publications and prices. I am particularly interested in an authoritative work of recent date listing the total number issued in each year of the various denominations and design of each denomination of all U. S. gold, silver, nickle and copper coins. Will also appreciate any suggestions from you as to names of responsible concerns from whom I will probably be able to purchase on best basis in wholesale quantities until I can get a fairly complete collection of U. S. coins.

Yours very truly,

T. J. Smith.

Dear Sir:

Responding to your letter of April 16th, I take pleasure in enclosing a list of our Numismatic Notes and Monographs and other printed material. I hope that you will find some of the titles of interest. I should be glad to have you consider an invitation to become an Associate Member of this Society. The yearly dues are five dollars, and as an Associate you would receive our monographs ehich usually total more than that amount annually.

With regard to your request for books dealing with United States issues, I would refer you to Wayte Raymond's "United States Gold Coins", and the "Numismatist's Reference and Check Book" compiled by Ben G.Green (Masonic Temple, Chicago). Mr. Raymond is also a coin dealer and I think would be as well prepared to aid you as any other. As we do not like to show partiality however, because many of these are members of our Society, I am enclosing a list of other dealers.

If the above information is of service to you I shall be very happy.

Very truly yours,

Secretary.
